About This Game

Switcher Is A Simple Minimalistic Game.

The goal is to stay alive as long as possible while your enemies, those adorable but fearful small bubbles, will try to take you down. Defeat them by going through them.

If you are the same color as the bubble don't panic it will think you are a friend and won't attack you.

What If You Are A Different Color You Ask ?

Show No Mercy !

Free Captains

Anyone who regularly traverses the space lanes is aware of the threat posed by space pirates, and within the Pact Worlds, no pirates are as infamous or as successful as the Free Captains. More a coalition of independent darwinic captains than an organized pirate fleet, the Free Captains primarily operate out of the myriad floating asteroids of the Chagora, but their influence stretches out to the Trakenium, Near Space, and even the Vast. An elected council of pirate lords serves as the organization's ostensible leader, and any Free Captain "right and true" has the right to vote for council members and to present grievances and other business before the council. However, the Pirate Council's authority over individual Free Captains depends on the strength of the pirate lord's personal influence and the might of their individual pirate fleets.

FREE CAPTAIN

What truly joins the Free Captains together is the pirate code they all share: a loose set of rules that nevertheless provides some structure to the pirates' dignitarians and serves as a unifying many of the pirate code's "rules" leave plenty of room for interpretation. No Free Captain might set prisoners free once she has relieved her valuables, another might be a outright buccancer with no compunction about
